For each Market Day you can have new companies with new partners, new names, and new products (with a maximum of four people per company). You will need a new Business License Application for each Market Day. You need to turn in one application per company, but you might want to print out a copy for each member of the company.

In Mrs. Kragen's class, you will write a letter to apply for desk space for Market Day, and you will pay rent for that space. Work together as a group to type a business letter to your teacher (one per group) explaining how much desk space you want and where you want your desks to be. You will be charged \$10 per desk per person.

You need to fill out a new Business Expense Form for each Market Day. You figure out what to pay your parents for materials and labor.

You can bring NO MORE THAN 20 items per person to sell at Market Day. You must price each item at a minimum of \$10 for rounds 1-4. Make sure your items are worth \$10! If you, for your individual contribution, are raffling off a single item, you may sell 100 tickets for \$2 each. Once you've sold all 100 tickets, that's the end—draw the name of the winner.

NO FOOD ITEMS ARE ALLOWED!
